

EASO/2020/775

Call for expressions of interest to establish an EASO list of external remunerated experts

FREQUENTLY ASKED QUESTIONS

Q1: *In case one professional experience might be relevant for more than one area, how should I fill in the application form?*

A1: When filling in the Application form, under point 4 “RELEVANT PROFESSIONAL EXPERIENCE (remunerated and non-remunerated)”, the expert must indicate, under the 6th row, **for which area of expertise applied for** is the experience relevant. In particular, the expert must indicate the field number (e.g. III.a, Programme / Project monitoring).

In case the experience is relevant **for more than one area of expertise** (e.g. III.a Programme / Project monitoring AND III.b Programme / Project evaluation), the expert must indicate which percentage of the time indicated under the column “% of full time” was dedicated to each area.

The percentage of professional experience for each area of expertise must be indicated independently, even though it might be overlapping (e.g. 100% for area I.a and 100% for area IV.a).
