Subject: EASO/2014/135: CLARIFICATION 1

1.1.

Q: We saw the invitation of tender and we want to ask if we can participate but in your list of furnitures you wrote furniture with leather...Do you need only that kind of furniture or we can propose our items with cardboard?

You consider that the cardboard has many advantages: it is eco friendly, recyclable, customizable, durable, and above all (soprattutto) it reduces the costs of transportation and logistics.

A: The tenderer shall provide a price for each item listed in Annex 3.4.2 – Financial Proposal Form and a description and/or reference to catalogue for each item listed in Annex 3.4.1 – Technical Proposal Form; in addition, as foreseen by paragraph 1.2.2 of the Technical Specifications *“The tenderer shall supply a paper catalogue in English. The catalogue shall contain a large range of items with a full description mentioning brand and characteristics of each item, including colour pictures. The catalogue must indicate the NET prices of all items offered to EASO(...)”*.

As the catalogue shall include all the items listed by EASO plus other items, you may propose in addition your items in cardboard.
