### ***Certificate of the Accounting Officer***

These Final annual accounts of the European Asylum Support Office (EASO) for the financial year 2015 have been prepared in accordance with Title IX of the Financial Regulation applicable to the general budget of the European Union, the EASO Financial Regulation and the accounting rules adopted by the Commission's Accounting Officer, as are to be applied by all the institutions, agencies and joint undertakings.

I acknowledge my responsibility for the preparation and presentation of the annual accounts of EASO in accordance with the EASO Financial Regulation.

I have obtained from the Authorising Officer, who guaranteed its reliability, all the information necessary for the production of the accounts that show EASO's assets and liabilities and the budgetary implementation.

I hereby certify that based on this information, and on such checks as I deemed necessary to sign off the accounts, I have a reasonable assurance that the accounts present fairly, in all material aspects, the financial position, the results of the operations and the cash-flow of EASO.

(Signed 10/06/2016)

Isaac Jimenez Carvajal,  
Accounting Officer

## 1. Introduction

### 1.1 *Short introduction*

The European Asylum Support Office (referred to as “EASO”) has been created within Regulation (EU) No 439/2010<sup>1</sup> of the European Parliament and of the Council establishing a European Asylum Support Office (referred to as “EASO Regulation”).

EASO contributes to the creation of a Common European Asylum System. EASO’s purpose is to facilitate, coordinate and strengthen practical cooperation among Member States on the many aspects of asylum, such as: providing practical and operational support to Member States; providing operational support to Member States subject to particular pressure on their asylum systems, including the coordination of asylum support teams made up of national asylum experts; and providing scientific and technical assistance for EU policymaking and legislation in all areas having a direct or indirect impact on asylum.

Following an application by the Government of the Republic of Malta to host the seat of EASO, on 25/02/2010 the Representatives of the Governments of the EU Member States took Decision to locate EASO in Valletta Harbour<sup>2</sup>.

EASO is comprised of a Management Board and an Executive Director assisted by staff members.

The EASO Management Board is composed of one member from each Member State – except Denmark, two members from the European Commission and one non-voting member of the UNHCR. Denmark is invited to attend, as observer, all meetings of the Management Board and other relevant meetings.

The key functions of the Management Board, as the governing and planning body of EASO, are outlined in Article 29 of the EASO Regulation and include: the appointment of the Executive Director, adoption of the work programmes, annual reports, budget, and has overall responsibility for ensuring that EASO performs effectively its duties.

The Executive Director, who shall be independent in the performance of his tasks, is the legal representative of EASO and is responsible, inter alia, for the administrative management and for the implementation of the Work Programme and the decisions of the Management Board. He serves for a period of five year term of office, renewable once for three years. The first Executive Director, Dr Robert K. Visser, took up office on 1 February 2011 and left on 31 October 2015. He was replaced by Mr Jose Carreira.

The Accounting Officer is appointed by the Management Board. Mr Isaac Jiménez Carvajal took up this function on 16 August 2012.

The Internal audit function is performed by Internal Audit Service of the European Commission.

The External audit is performed by the European Court of Auditors, after considering the audit work performed by the independent external private auditor.

The Discharge Authority is the European Parliament, acting on a recommendation from the Council.

---

<sup>1</sup> OJ L 132, 29.5.2010, p. 11.

<sup>2</sup> OJ L 324, 9.12.2010, p. 47.

Every year, EASO shall publish a consolidated annual activity report on its activities, including its financial statements (annual accounts and budget implementation reports).

## 1.2 *Legal Framework*

This report has been prepared in accordance with the EASO Financial Regulation adopted by its Management Board, in particular its Title IX.

The EASO Accounting Officer shall send the Provisional accounts to the accounting officer of the Commission and to the Court of Auditors by 1 March of the following year.

The Court of Auditors shall, by 1 June of the following year at the latest, make its observations on the Provisional accounts.

On receiving the Court of Auditors' observations on the Provisional accounts, the EASO Accounting Officer shall draw up the final accounts.

The Executive Director shall send them to the Management Board, which shall give an opinion on these accounts.

The EASO Accounting Officer shall send the final accounts, together with the opinion of the Management Board, to the accounting officer of the Commission, the Court of Auditors, the European Parliament and the Council, by 1 July of the following financial year.

The objectives of financial statements are to provide information about the financial position, performance and cash-flows of EASO.

The financial statements have been prepared according to the accounting rules adopted by the European Commission's accounting Officer, following the principles of accrual-based accountancy where the economic outturn, balance and cash flow are concerned.

The general accounts are accrual accounts which mean that the effects of transactions and other events are recognised when those transactions or events occur (and not only when cash or its equivalent is received or paid). They are based on the IPSAS (International Public Sector Accounting Standards). The general accounts allow for the preparation of the financial statements as they show all revenues and expenses for the financial year and are designed to establish the financial position in the form of a balance sheet at 31 December.

The budget execution is prepared on the basis of a modified cash accounting. In cash accounting system, payments made and revenue received are recorded. Modified cash accounts means that payment appropriations carried over are also recorded. They are used to produce the budgetary outturn account and reports on budget implementation.

These provisions lead to discrepancies between the general accounts and the budget accounts.

The accounting policies have been applied consistently throughout the period.

### 1.3 *Accounting principles*

Based on the EASO Financial Regulation, the financial statements are drawn up in accordance with the generally accepted accounting principles specified in the detailed rules for implementing the General Financial Regulation, namely:

#### **a) Going concern basis principle**

The going-concern principle means that for the purposes of preparing the financial statements, EASO is deemed to be established for an indefinite duration.

#### **b) Principle of prudence**

The principle of prudence means that assets and income have not been overstated and liabilities and charges have not been understated. No hidden reserves or undue provisions have been created.

#### **c) Principle of consistent accounting methods**

The principle of consistent accounting methods means that the structure of the components of the financial statements and the accounting methods and valuation rules has not been changed from one year to the next.

#### **d) Principle of comparability of information**

The principle of comparability of information means that for each item the financial statements also show the amount of the corresponding item the previous year.

Where, pursuant to previous paragraph, the presentation or the classification of one of the components of the financial statements is changed, the corresponding amounts for the previous year have been made comparable and reclassified. Where it has been impossible to reclassify items, this shall be explained in the annex.

#### **e) Materiality principle**

The materiality principle means that all operations which are of significance for the information sought have been taken into account in the financial statements. Materiality has been assessed in particular by reference to the nature of the transaction or the amount.

Transactions may be aggregated where:

- (a) The transactions are identical in nature, even if the amounts are large;
- (b) The amounts are negligible;
- (c) Aggregation makes for clarity in the financial statements.

#### **f) No-netting principle**

The no-netting principle means that receivables and debts may not be off-set against each other, nor may charges and income, save where charges and income derive from the same transaction, from similar transactions or from hedging operations and provided that they are not individually material.

**g) Principle of reality over appearance**

The principle of reality over appearance means that accounting events recorded in the financial statements have been presented by reference to their economic nature.

**h) Accrual-based accounting principle**

The accrual-based accounting principle means that transactions and events have been entered in the accounts when they occurred and not when amounts were actually paid or recovered. They shall be booked to the financial years to which they relate.

**Currency**

The financial statements of EASO are presented in Euros.

**Transactions in foreign currencies**

Economic transactions in other currencies than in Euros have been converted into Euros on the basis of European Commission's official rate.

A very limited number of transactions during the reporting period occurred in foreign currencies.

**Financial independence**

EASO became financially independent on 20 September 2012.

### 3. Annex to the Financial Statements

#### 3.1 *Notes to the Balance Sheet*

##### 3.1.1 Non-current assets

Assets are resources controlled by EASO as a result of past events and from which future economic benefits or service potential are expected to flow to the entity.

Fixed assets are assets with an acquisition price value above 420 Euros and are expected to be used during more than one year. Assets, which do not fall under the above described criteria, have been charged against expenses and are reflected in the Statement of financial performance. Repairs and maintenance are recognised as running expenses during the financial period in which they are incurred.

EASO's assets are already tagged with label stickers. A full inventory is available and a physical inventory check of EASO's assets was performed in the period September - December 2015 and will be performed afterwards at least annually.

The assets were valued in the financial statements at their purchase price minus depreciation, in order to give a fair value of EASO's assets.

Depreciation is the systematic allocation of the depreciable amount of an asset over its useful life. The depreciation method chosen is the straight-line method. EASO's fixed assets are depreciated on a monthly basis. The depreciation rates are the coefficients used at the European Commission. The applied depreciation annual percentage rates per asset types are as follows:

Intangible fixed assets:

Computer software	25.0%
-------------------	-------

Tangible fixed assets:

Specific equipment	25.0%
--------------------	-------

Computers, servers, printers etc.	25.0%
-----------------------------------	-------

Telecommunications and audio-visual equipment	25.0%
---	-------

Office furniture	10.0% and 12.5%
------------------	-----------------

### 3.1.1.1 Intangible fixed assets

Intangible assets are identifiable non-monetary assets without physical substance.

EASO's intangible fixed assets during the reporting period are composed of IT software.

### 3.1.1.2 Tangible fixed assets

Tangible fixed assets are assets that are held by EASO for use in the production or supply of goods or services, for rental to others, or for administrative purposes and are expected to be used during more than one reporting period.

EASO's tangible fixed assets consist of office furniture, printing and copying equipment, computers, servers and accessories, and other electronic office equipment.

### 3.1.2 Current assets

#### 3.1.2.1 Short-term pre-financing

Pre-financing is a payment intended to provide the beneficiary with a float, i.e. cash advance.

#### 3.1.2.2 Short-term receivables

Receivables are carried at original invoice amount less write-down for impairment. A write-down for impairment of receivables is established when there is objective evidence that EASO will not be able to collect all amounts due according to the original terms of receivables.

EASO's receivables comprise mainly the VAT to be recovered from Maltese Tax Authorities for an amount of 427,807.31 EUR. In accordance with the Seat Agreement and the Protocol on privileges and immunities of the European Union, EASO is entitled to VAT reimbursements for purchases with a value of more than 240 EUR.

#### 3.1.2.3 Cash and equivalents

EASO has one bank account opened with ING in Belgium. The bank balance at the end of the reporting period was:

	31/12/2015	31/12/2014
EUR account	1,519,927.87 EUR	2,208,818.76 EUR

### 3.1.3 Current liabilities

#### 3.1.3.1 Short-term provisions

EASO had no legal cases pending at 31/12/2015, so the provision has been reversed.

### 3.1.3.2 Accounts payable

Payables are amounts due to a creditor, including transactions arising from the purchase of goods and services.

Current payables consist of amounts owed by EASO at the end of the reporting period for invoices, claims and requests for reimbursement that have been received.

Accrued charges represent estimate of liabilities that is not supported by an invoice or a cost claim or an expense summary at the end of the reporting period. Accrued charges have been estimated on the basis of accounting information provided by the authorising officers. Unspent annual leave is included and reflects EASO staff annual leave days carried over to the following year.

## 3.2 Notes to the Statement of financial performance

### 3.2.1 Operational revenue

In accordance with the principle of accrual-based accounting, the financial statements shall show the income for the financial year, i.e. when they were recognised, regardless of the date of collection.

EASO's revenue during year 2015 consists mainly in the European Commission subsidy (EU contribution for C1 appropriations).

During 2015, EASO received four bank transfers corresponding to the subsidy (pre-financing for EU contribution) from the European Commission for an amount of 13,100,000 EUR. The budgetary outturn calculation shows the part of Commission subsidy registered as income and the part of pre-financing remaining open to be reimbursed by EASO to the Commission in 2016.

Other operational revenue takes into account the value of fixed assets transferred by the Commission, reimbursements of expenses and realised/unrealised exchange rate gains.

REVENUE	EUR
Revenue from consolidated EC entities (EU Subsidy)	13,100,000.00
Revenue from consolidated EC entities (EU ENPI Project)	430,861.20
Revenue from Associate Country (Norway)	363,407.99
Revenue from cancellation of provisions	10,000.00
Fixed Assets related income	0.00
Income from consolidated EU entities (non-reconciled)	65,716.00
Recovery of expenses	9,159.62
Exchange rate differences gains (from operating activities)	1,540.52

### 3.2.2 Operational expenses

In accordance with the principle of accrual-based accounting, the financial statements shall show the charges for the financial year, i.e. when they were recognised, regardless of the date of payment.

Administrative expenses relate to EASO's administrative activities (budget titles 1: Staff expenditure and 2: Infrastructure and operating expenditures).

Staff expenditure include EASO staff related costs (basic salaries, allowances, contract agents, family allowances, insurance, social contributions, etc.) covered by the Staff Regulations and Conditions of Employment of Other Servants of the European Union, as well as the allowances for Seconded National Experts.

#### Payroll charges

All salary calculations giving the total staff expenses included in the Statement of financial performance of EASO are externalized to the Office for administration and payment of individual entitlements (also known as the Paymaster's Office - PMO) which is a central office of the European Commission.

The PMO's mission is to manage the financial rights of permanent, temporary and contractual staff working at the Commission, to calculate and to pay their salaries and other financial entitlements. The PMO provides these services to other EU institutions and agencies as well. The PMO is also responsible for managing the health insurance fund of the Institutions, together with processing and paying the claims of reimbursement from staff members. The PMO also manages the pension scheme and pays the pensions of retired staff members. The PMO is being audited by the European Court of Auditors.

EASO is only responsible for the communication to the PMO of reliable information allowing the calculation of the staff costs. It is also responsible to check that this information has been correctly handled in the monthly payroll report used for accounting payroll costs. It is not responsible for the calculation of the payroll costs performed by PMO.

Fixed assets expenses reflect depreciation charges for the year 2015.

Infrastructure and operating expenditures consist of administrative expenses incurred from EASO daily activities, such as rent, public utilities (electricity, water, etc.), office supplies, meetings organising expenses, etc.

Operational expenses are intended to cover EASO operational activities (budget titles 3 and 4: Operational expenditures).

### 3.3 *Contingent liabilities*

#### Operating lease

This corresponds to the rental/lease expenses of the EASO building in Valletta Harbour (4 floors).

<b>Operating lease</b>	<b>Total amount (EUR)</b>
Due within one year	612,984.36
Due between one year and five years	2,126,715.18

### **Commitments for future funding**

Contractual commitments, for which budget commitments as of 31 December 2015 had not yet been made, were not present.

### **Legal cases**

EASO had no legal cases open at the end of 2015.

## **3.4 Related parties**

EASO is managed by the Executive Director, who also performs the duties of Authorising Officer, under the supervision of the Management Board. In accordance with the EASO Financial Regulation Article 40, the Executive Director may delegate his/her powers of budget implementation to EASO staff covered by the Staff Regulations.

As of 31/12/2015, EASO had in total 1 Authorising Officer and 3 Authorising Officers by delegation who are temporary agents in the following grades:

<b>Grade</b>	<b>Number of persons</b>
AD14	1
AD10	2
AD9	1
<b>Total</b>	<b>4</b>

## **3.5 Financial risk management**

EASO is exposed to limited liquidity, interest rate, foreign currency exchange and credit risks which arise in the normal course of its operations. This note presents information about EASO's exposure to each of the above risks. Unless otherwise indicated, EASO prudently manages its investments.

### **Liquidity risk**

Liquidity risk is the risk of EASO not being able to meet its obligations as they fall due. EASO does not have significant exposure to liquidity risk as it has resources from the budget of the European Union. The investments are held in liquid bank deposits.

**Credit risk**

Credit risk is the risk of financial loss to EASO if counterparties to financial instruments fail to meet their contractual obligations, and it arises principally from receivables, and cash and cash equivalents.

EASO's accounts receivable are almost exclusively from EU member states, and therefore risks related to credit are considered minor.

EASO minimises the credit risk to its cash and cash equivalents by holding its funds in banks with high or upper medium grade credit ratings.

**Currency risk**

EASO receives its revenues in euros and incur expenses also in euros, and exceptionally in other currencies. As a result, the foreign currency exchange risk arising from fluctuations of currency exchange rates is extremely limited.

**Interest rate risk**

EASO's bank account's interest rates are linked to the financial markets. EASO is to a very limited extent exposed to the risk of falling interest rates, since only 0.1 per cent of its revenue derived from investment income.

**Fair values**

At 31 December 2015, the carrying amounts of cash at bank, receivables, payables, and accrued expenses approximated their fair values.

**3.6 *Other Significant Disclosures***

None.

**3.7 *Events after the balance sheet date***

In March 2016 EASO was informed of a legal case, an appeal before the General Court of the European Union (this case was previously before the Civil Service Tribunal of the European Union and the action was dismissed in 2015).

No other material issues were reported to the Accounting Officer that would require separate disclosure under this section.

## 4. Reports on the implementation of the budget 2015

### 4.1 *Budgetary principles*

In Accordance with the EASO Financial Regulation Title II, the establishment and implementation of the budget of EASO shall comply with the following principles:

#### **a) Principles of unity and budget accuracy**

This principle means that no revenue shall be collected and no expenditure effected unless booked to a line in EASO's budget.

An appropriation must not be entered in the budget if it is not for an item of expenditure considered necessary.

No expenditure may be committed or authorised in excess of the appropriations authorised by the budget.

#### **b) Principle of annuality**

The appropriations entered in the budget shall be authorised for one financial year which shall run from 1 January to 31 December.

#### **c) Principle of equilibrium**

This means that the budget revenue and payment appropriations must be in balance.

#### **d) Principle of unit of account**

The budget shall be drawn up and implemented in euro and the accounts shall be presented in euro.

#### **e) Principle of universality**

Total revenue shall cover total payment appropriations and all revenue and expenditure shall be entered in full without any adjustment against each other.

#### **f) Principle of specification**

The appropriations in their entirety shall be earmarked for specific purposes by title and chapter; the chapters shall be further subdivided into articles and items.

#### **g) Principle of sound financial management**

Budget appropriations shall be used in accordance with the principle of sound financial management – in accordance with the principles of economy, efficiency and effectiveness.

## **h) Principle of transparency**

The budget is established and implemented and the accounts presented in compliance with the principle of transparency - the budget and amending budgets are published in the Official Journal of the European Communities.

### **4.2 Budget 2015 – Initial, Amended, and transfers**

In accordance with article 33 of the EASO Regulation, the revenues and resources of EASO shall consist, in particular, of:

- (a) a contribution from the Union entered in the general budget of the European Union;
- (b) any voluntary contribution from the Member States;
- (c) charges for publications and any service provided by EASO;
- (d) a contribution from the associate countries.

During 2015, EASO has received a subsidy from the Commission divided in 4 instalments, a contribution from an associate country (Norway) and financing for a specific project called “ENPI Project”.

The expenditure of EASO shall cover staff remunerations, infrastructure and administrative expenditure, and operational expenditure and are divided into 4 titles as follows:

- Title 1 - Staff expenditure
- Title 2 - Infrastructure and operating expenditure
- Title 3 - Operational expenditure
- Title 4 - Operational expenditure for specific projects (earmarked appropriations)

In 2015, two Amending Budgets were adopted by the Management Board. In addition to these Amending Budgets, the Authorising Officer or Authorising Officers by Delegation have approved a total of 18 budget transfers during the year.

The tables below present the Budget 2015 in terms of appropriations for revenue, commitment and payment.

The distribution of appropriations among Titles of the Budget 2015 is as follows.

## Revenue

### 4.3 Budget 2015 – Execution

The present budget implementation report covers the period from 1 January to 31 December 2015.

C1 appropriations (appropriations of the current year), C8 appropriations (appropriations and commitments carried-forward from previous years), C4 appropriations (appropriations and commitments internally assigned), C5 appropriations (appropriations and commitments from internal assigned revenue carried over from previous year) and R0 appropriations (appropriations from external assigned revenue) were present.

Commitments are entered in the accounts on the basis of the legal commitments entered into up to 31 December and payments on the basis of the payments made by the Accounting Officer by 31 December of that year, at the latest.

EASO has non-dissociated appropriations for titles 1 and 2 (commitment and payment appropriations are equal and linked) and differentiated appropriations for title 3 and title 4.

#### 4.3.1 Budget execution of Income appropriations

#### 4.4 Carry-over from 2015 to 2016

The carry-over is intended to cover pending expenditure at the end of the year (several invoices and debit notes from contractors and EU institutions/agencies were pending to be received).

Carry-over of appropriations relates to:

- Title 1: Staff expenditure such as missions, schooling and representation/miscellaneous costs;
- Title 2: Infrastructure and operating expenditure (IT hardware, software and related services, etc.), administrative assistance from other EU institutions (e.g. SLAs with PMO), translations and publications, business consultancy and organisation costs of Management Board meetings;
- Title 3: Operational expenditure such as translations and publications, organisation of events, reimbursement of participants/experts to meetings organised by EASO, etc.
- Title 4: Operational expenditure for specific projects (ENP countries participating in the work of EASO) such as translations, staff travel costs, organisation of events, reimbursement of participants/experts to meetings organised by EASO, etc.

##### 4.4.1 Non-differentiated C1 appropriations carried-over from 2015 to 2016

Non-differentiated C1 appropriations (Title 1 and Title 2) corresponding to obligations duly contracted at the close of the financial year are carried over automatically to the following financial year only, together with the payment appropriations.

Budget Title	Description	Commitment execution 2015	Payment execution 2015	RAL Commitment and payment appropriations carried-over to 2016	Ratio carry-over / commitments
Title 1	Staff expenditure	5,533,270.59	5,344,958.07	188,312.52	3.40%

#### 4.4.2 C4 appropriations carried-over from 2015 to 2016

C4 appropriations (internally assigned funds) are carried over automatically to the following financial year as C5 appropriations, together with the payment appropriations.

Budget Title	Description	Current budget 2015	Current execution 2015	Carry-over to 2016	Ratio (%)
Title 1	Staff expenditure	481.02	0.00	481.02	100.00%
Title 2	Infrastructure and operating expenditures	102,748.00	72,551.55	30,196.45	29.39%

#### 4.4.3 R0 appropriations carried-over from 2015 to 2016

R0 appropriations (externally assigned funds) are carried over automatically to the following financial year together with the payment appropriations.

Budget Title	Description	Current budget 2015	Current execution 2015	Carry-over to 2016	Ratio (%)
