EASO Learning path

At the end of 2013 EASO adopted a learning path with a set of Core, Advanced and Optional Modules to ensure that trainees receive training in areas which are key for the performance of their daily tasks and specific roles. Such learning path is in place for five target groups identified by EASO: case officers (primary target group for EASO training modules), managers of asylum units, policy officers, COI researchers and reception officers.

EASO Learning path for case officers

- **CORE MODULES**
  - Inclusion
