1. EASO's mission, tasks and priorities

1.1. Introduction

In recent years important steps forward have been undertaken in the development of the Common European Asylum System (CEAS) in order to develop the policy, legal and financial support instruments in the field of asylum.

The second phase EU legal instruments provide the legal basis for greater harmonisation and set higher quality standards, thereby ensuring uniform statuses, high common conditions of protection and common features in asylum procedures for those in need of international protection. Furthermore, the strategic guidelines for the further development of the Justice and Home Affairs (JHA) area adopted by the European Council in June 2014 define the priorities and objectives in this area, calling for a stronger role of the European Asylum Support Office (EASO) particularly in promoting the coherent application of the *acquis*. Additionally, the incoming President of the European Commission, in the political guidelines for the next European Commission presented in July 2014 (¹), envisages a closer involvement of EASO in assisting Member States and third countries' authorities. The Commission communications 'An open and secure Europe: making it happen' (²) and 'on the work of the Task Force Mediterranean' (³) identify relevant actions in the areas of responsibility of EASO. Finally, the new multiannual financial framework 2014–20 (MFF), including the new Asylum, Migration and Integration Fund (AMIF), provides the basis for the EU financial support on asylum, including allocations to EU agencies.

A coherent, comprehensive and consistent implementation of the recast EU asylum package is essential in order to ensure that a genuine CEAS is achieved. In this framework, EASO is assigned the task of promoting coherent implementation and supporting harmonised practices that lead to convergence regarding decisions on similar situations. In this context, in 2015 EASO will continue playing a central role in supporting Member States and associated countries participating in EASO (4) as well as the EU institutions in achieving these objectives through advanced practical cooperation measures, expertise, common analyses and evidence-based policy input.

In this regard, the EASO annual work programme 2015 defines the general plans for EASO's activities and provides the overall basis for the yearly activity-based budgetary planning. The EASO work programme 2015 is in line with the common approach on EU decentralised agencies and its roadmap, which call for a comprehensive approach concerning annual and multiannual planning linked to resource planning. Therefore, this work programme is drawn up within the general framework outlined in the EASO multiannual work programme 2014–16, which comprises the strategic context and the objectives of EASO for this period. This document foresees the activities on the basis of which the estimates of revenue and expenditure and the establishment plan are drafted.

According to Article 29(1)(f) of the EASO regulation, the Management Board adopted the work programme on 22 September 2014. The opinion of the European Commission, which was adopted on 27 August 2014, has been duly taken into consideration.

The implementation of the work programme 2015 will take into consideration the outcome of the internal evaluation conducted by the European Commission in 2013, as well as the independent evaluation undertaken during the period from October 2014 to October 2015. Evaluation of EASO's activities and their impact and added value is essential for EASO's overall effectiveness and efficiency.

Nevertheless, in view of the nature of EASO's work and the need to respond in a timely and proactive manner to changing scenarios, circumstances and priorities, the Management Board authorises the Executive Director to decide upon changes to the work programme 2015 and to retain the necessary flexibility to respond accordingly while implementing the work programme.

EASO has held consultations with the Consultative Forum and the JHA agencies on the outline of the draft work programme 2015. EASO received contributions from members of civil society, namely the Asylum Research Consultancy, the Dutch Council for Refugees, the European Council on Refugees and Exiles, the Greek Council for

All received contributions have been carefully studied and taken in due consideration.

1.2. EASO's mission

EASO's mission is to contribute to the implementation and development of the CEAS by providing support and facilitating, coordinating and strengthening practical cooperation among EU+ countries as an independent centre of expertise on asylum.

1.3. EASO's tasks

In order to fulfil its mission, EASO's main tasks in 2015 are to provide:

- practical and technical support to EU+ countries and the EU institutions;
- operational support to EU+ countries that have specific needs and to EU+ countries subject to particular pressure on their asylum and reception systems caused by sudden and extraordinary situations of arrivals on their territory;
- scientific input for EU policymaking and legislation in all areas having a direct or indirect impact on asylum and migration.

1.4. EASO's key performance indicator

EASO's overall key performance indicator represents the Agency's ability to meet the objectives set out in the EASO annual work programme.

Consequently, EASO's key performance indicator is represented by a qualitative indicator aiming at demonstrating the impact of EASO's support in the coherent implementation of the CEAS.

It will take into account the:

- tasks laid down in the EASO regulation, the recast EU asylum *acquis* and other related EU documents and the progress of EASO in implementing activities to fulfil these tasks;
- requests made by the EU+ countries, the European Commission, the Council of the EU, the European Parliament and other EU institutions, agencies and bodies to develop and execute additional EASO activities in order to support the implementation of the CEAS;
- evaluative opinions given by the EU+ countries, the European Parliament, the Council of the European Union, the European Commission, other EU institutions, agencies and bodies and other EASO partners on EASO's work.

The work programme identifies a number of specific objectives which are structured according to SMART (specific, measurable, achievable, realistic, time-based) principles. In order to measure EASO's performance, indicators are developed for each objective together with the expected output and timeframe.

1.5. EASO's priorities for 2015

In 2015 EASO will focus its efforts in contributing to the effective, coherent and consistent practical implementation of the recast EU asylum *acquis*. Key to the further development of the CEAS is sufficient capacity in EU+ countries' national asylum systems. EASO will have a more central role in coordinating these capacity-building measures through practical cooperation activities, including training, Country of Origin Information (COI) and quality reports. EASO will enhance its capacity to collect and exchange information and documentation on asylum systems, as well as its Early warning and Preparedness System (EPS). EASO will also endeavour to support the external dimension of the CEAS in line with the EASO external dimension strategy, in agreement with the European Commission and within the framework of the EU external relations policy.

EASO will organise advance practical cooperation activities for EU+ countries, the European Commission and other stakeholders, including conferences, workshops, expert meetings and specialised networks in order to discuss and

take action on various issues of EU-wide relevance in the field of asylum (e.g. on policy, implementation of EU asylum law, situations in countries of origin, best practices, emergency flows, etc.). EASO will streamline the methodology and activities to promote practical cooperation in the field of asylum. To do so, EASO will organise at least 48 practical cooperation workshops, expert meetings, conferences or specialised network meetings and develop at least eight practical cooperation tools. In order to further support Member States during the transposition and implementation of the EU asylum *acquis*, EASO will continue organising practical workshops back to back to the meetings of the Contact Committees on themes identified by Member States. EASO's current products, activities and programmes already bring EU-wide added value. Thus EASO will consolidate and develop further its existing core activities, but new activities will be promoted following a step-by-step approach.

EASO's objectives for 2015

- Strengthening the role of common training and professional development in the field of asylum;
- improving the quality of asylum processes and decisions;
- producing more common Country of Origin Information (COI);
- developing joint processing;
- stimulating judicial dialogue in the field of asylum;
- supporting better identification of vulnerable persons;
- collecting and exchanging accurate and up-to-date information and documentation on the functioning of the CEAS and further developing an Early warning and Preparedness System (EPS) to provide analysis of trends;
- providing timely and comprehensive operational support to Member States;
- promoting adequate reception conditions and integration measures;
- fostering synergies between migration and asylum practices, including on return of failed asylum seekers;
- supporting the external dimension of the CEAS.

2. Permanent support

2.1. EASO training

	Training			
EASO objective(s)	EASO aims at supporting EU+ countries in developing the knowledge, skills and competencies of their staff responsible for asylum matters through qualitative common training. EASO's training contributes to the coherent implementation of the CEAS by supporting the establishment of a common quality level across the EU. To this end, EASO follows a two-track approach: on one hand, EASO develops relevant training material and, on the other hand, EASO organises training

The	EASO will continue working on a European certification process of the EASO training curriculum to support EU+ countries in ensuring that their personnel responsible for asylum matters are trained as required by the provisions of the asylum procedures directive (APD) and have adequate knowledge and skills. The certification of the EASO training curriculum will be developed without prejudice to national systems and procedures.		
	EASO will cooperate with other EU agencies, particularly Frontex, the EU Agency for Fundamental Rights (FRA) and CEPOL, in the field of training. In this regard EASO will continue to be involved in common thematic training development, update or delivery such as fundamental rights and trafficking in human beings.

2.2. Quality support

	Quality support			
EASO objective(s)	EASO will continue its activities to support the establishment of quality processes and procedures in all EU+ countries. EASO will identify key quality needs in the asylum systems EU-wide in line with the methodology of the EASO quality matrix. Good practices on quality will be exchanged and EASO will develop common practical tools and materials. EASO will consider all relevant sources of information during this process and may, where necessary, consult relevant stakeholders, such as competent international organisations, particularly UNHCR, academia and civil society.

2.3. Country of Origin Information (COI)

	Country of Origin	Informati	ion (COI)
EASO aims at the development of a comprehensive EU COI system, aiming at raising and harmonising standards of COI together with EU+ countries and other key stakeholders. To this end, given the considerable capacity in COI production already existing in the EU and its EU+ countries, the creation and sharing of COI should be rationalised and harmonised via the network approach adopted by EASO. EASO will, via specialist networks, accurately map needs for COI at EU level at first and second instance, helping to fill gaps and avoid duplication as well as seeking to make EU COI more readily available via the COI portal. Moreover, EASO will seek to further develop common COI in cooperation with EU+ countries and relevant stakeholders such as relevant international organisations, particularly UNHCR, academia and civil society. The possibility of coordinating the exchange of information on COI fact-finding missions and of building practical experience will be also explored in order to foster synergies and achieve greater harmonisation potential.			
New in 2015	EASO will further focus on joint EU COI production and a functioning COI query system utilising the network approach while improving knowledge and use of new tools in the field of COI, building on the successful experience of the Online Research Conference of 2014. A detailed proposal for the future development of the COI portal will be made. Finally, in 2015 EASO will prepare the transfer of the MedCOI project by 2017.

2.4.1. Cooperation with members of the courts and tribunals

	Cooperation with European and EU+ countries' courts and tribunals			
EASO objective(s)	EASO will continue its cooperation with European and EU+ countries' courts and tribunals with the general objectives of contributing to the coherent implementation of the CEAS and advancing practical cooperation among EU+ countries on asylum. EASO's practical cooperation activities will be undertaken in line with the principles adopted in 2013, with full respect to the independence of courts and tribunals. EASO's activities in this area will include the joint preparation of professional development materials, the organisation and promotion of professional development and practical cooperation activities and the organisation of advanced workshops in accordance with EASO's 2014 methodology. In doing so, EASO will continue to cooperate with relevant partners in the field and make every effort to facilitate avenues for judicial dialogue and exchange.

3.5. Synergies between asylum and migration

	Synergies between asylum and migration			
EASO objective(s)	Asylum and international protection policies form part of a wider EU legal framework in the field of migration. Within this framework, EASO will foster coherence in the implementation of activities in the field of asylum and migration, in cooperation with relevant organisations and existing networks. In this regard, the return of failed asylum seekers is considered an integral part of an effective asylum system. EASO will also explore possibilities of exchanging information and best practices to mainstream elements relevant to the return of failed asylum seekers in close collaboration with the European Migration Network Return Expert Group (EMN REG). However, in view of the responsibilities of other organisations in the field of return, EASO does not intend to engage in the operational aspects of return.

3.6. Reception and integration

	Support on reception and integration			
EASO objective(s)	EASO will further develop its internal capacity to support EU+ countries with activities aimed at promoting adequate reception conditions and integration measures, based on a framework developed by EASO with particular attention to vulnerable groups. The activities will be performed in cooperation with relevant organisations and networks (e.g. the European Platform of Reception Agencies (EPRA), the network of national contact points of integration of the Commission) already operating in the field.			
New in 2015	In 2015, EASO will foster the exchange of information and best practices on reception systems and on integration measures within the framework of the CEAS. EU+ countries' capacity on contingency planning on reception for possible influxes of asylum seekers will be strengthened and the possibilities to develop a pilot project to share reception capacity in the EU will be explored.

4. Information and analysis support

4.1. Information and Documentation System

	Information and Documentation System			
EASO objective(s)	EASO will develop its Information and Documentation System (IDS) providing a single point of information on the organisation of EU+ countries' asylum and reception systems, as well as an overview of the practical functioning of the CEAS. Within this general IDS, EASO will continue steps to include case-law on European and EU+ countries' jurisprudence relevant to the provisions of the EU asylum <i>acquis</i> . EASO will consider all relevant sources of information including existing relevant databases during this process and consult relevant stakeholders, such as the European courts, other EU agencies, such as Frontex and FRA, competent international organisations, particularly UNHCR, academia and civil society.			
New in 2015	EASO will aim to build a suitable IT platform for the above based on commercially available software and establish an IDS network of EU+ countries' representatives able to provide data on changes in national policy, procedure and case-law.

Annual report on the situation of asylum in the EU			
EASO objective(s)	EASO aims to provide a comprehensive overview of the asylum situation in the EU on an annual basis to national and EU policymakers and stakeholders. The report is drafted in coordination with the European Commission annual report on immigration and asylum and takes into account input from civil society and academia.		
New in 2015	The annual report on asylum will include new analyses based on data collected under Stage II of EPS and to improve data visualisation and editorial standards.

4.3. Early warning and Preparedness System (EPS)

Early warning and Preparedness System (EPS)			
EASO objective(s)	EASO will develop further its Early warning and Preparedness System (EPS) that aims at providing EU+ countries, the European Parliament, the Council of the European Union and the European Commission with accurate, timely information and analyses on flows of asylum seekers to and within the EU and the EU+ countries' capacity to deal with them. The EPS will feed into the early warning, preparedness and crisis management mechanism provided for in Article 33 of the Dublin III regulation.		
New in 2015	In 2015, EASO will collect and analyse data on a regular basis under indicators of Stage II of the EPS and suggest and examine the feasibility of indicators for Stage III. EASO aims at using statistical and geographic information system (GIS) software tools to improve analysis and visualisation. EASO will form advisory groups from Group for the Provision of Statistics (GPS) members on key issues.

5. Third-country support

5.1. External dimension

	External c	limension	
EASO objective(s)	In line with the EASO external action strategy adopted in 2014, EASO will endeavour to support the external dimension of the CEAS in agreement with the European Commission and within the framework of the EU external relations policy. EASO will finalise its European Neighbourood and Partnership Instrument (ENPI) project with Jordan, Tunisia and Morocco by July 2015. Moreover, EASO will support capacity building in key EU neighbouring third countries' asylum and reception systems, as well as regional development and protection programmes (RDPPs). EASO will cooperate, where necessary, with relevant stakeholders, such as other EU agencies and competent international organisations, particularly UNHCR in the implementation of these activities.		
New in 2015	EASO will further explore how to support capacity building in third countries under the framework of the EASO External Action Strategy.

5.2. Resettlement

Resettlement				
EASO objective(s)	EASO will exercise a coordinating role/clearing house in exchanging information and other actions on resettlement taken by EU+ countries in cooperation with UNHCR and International Organisation for Migration (IOM). EASO will, in cooperation with UNHCR and IOM, promote coordination between EU+ countries in achieving agreed targets of resettlement, not only in terms of submissions but also in terms of effective departures to the EU. EASO aims at strengthening the EU's role in this area, in cooperation with the European Commission, with a view to meeting the international protection needs of refugees in third countries and showing solidarity with their host countries.			
New in 2015	EASO will support the implementation of a joint EU resettlement programme.

6. EASO's framework, network and organisation

6.1. Management Board

EASO's internal governance and administrative structure comprises a Management Board and an Executive Director.

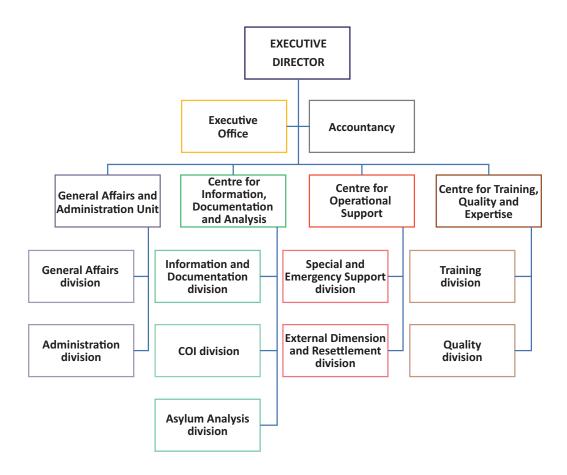

The **Management Board** is the governing and planning body of EASO. Its key functions in 2015 include the adoption of the work programmes and annual reports of EASO and the adoption of the budget. Furthermore, the Management Board will ensure that EASO performs effectively its duties.

Management Board					
EASO objective(s)	EASO aims to ensure that its Management Board continues to fulfil effectively and efficiently its tasks as EASO's governing and planning body.				
Performance					
EASO activities in 2015		When	Indicators

Budget line and allocated amount		2306 Administrative internal and external meetings expenditures: EUR 200 000			
Human resources and allocated staff		Executive Office 0.5 AD, 0.5 CA			

The **Executive Director** is independent in the performance of his or her tasks and is the legal representative of EASO. The Executive Director will exercise his or her responsibilities for the administrative management of EASO and for the implementation of the work programme and the decisions of the Management Board.

The Executive Director will be supported by Heads of Unit/Centre, the Accounting Officer and an Executive Office. In 2015 no changes are foreseen in the internal structure of EASO, which will be composed of four units/centres, namely:

- the General Affairs and Administration Unit (GAAU);
- the Centre for Information, Documentation and Analysis (CIDA);
- the Centre for Operational Support (COS);
- the Centre for Training, Quality and Expertise (CTQE).

6.2. Cooperation network of EASO

6.2.1. Cooperation with the European Parliament, the Council of the European Union and the European Commission

As a decentralised EU regulatory agency having its own governance structure, EASO acts within the policies and institutional framework of the EU. In this context, the political responsibility for the area of asylum lies with the European Commissioner responsible for home affairs and thus strong cooperation links exist with the European Commission on all EASO activities. In 2015 the European Commission will be invited to give its opinion on specific documents to be adopted by the EASO Management Board in line with the relevant provisions of the EASO regulation. Regular meetings at all levels and regular policy-related videoconferences with DG Home Affairs will take place throughout 2015. Furthermore, during 2015 EASO will continue organising practical workshops back to back to the meetings of the Contact Committees. Additionally, EASO will coordinate with the European Commission the drafting of reports. EASO and the European Migration Network (EMN) will draw on the same data from the EU+ countries for all information when drafting reports such as the EASO annual report. EASO will participate in EMN NCP meetings and its Steering Board and relevant thematic meetings. In addition, in 2015 EASO will seek to conclude a memorandum of understanding with Eurostat.

In line with the EASO regulation, EASO will send its annual work programme and annual activity report to the European Parliament, the Council of the European Union and the European Commission. The Executive Director is regularly invited to report to the Justice and Home Affairs Council with regard to the CEAS. Moreover, the Executive Director is invited to present the EASO work programme, as well as specific topics related to EASO's work, to the European Parliament.

In 2015, EASO will play a supporting role in the multiannual financial framework and the new arrangements on EU funding in the field of asylum and migration. In this respect, EASO will provide information on EU operational priorities and on EU+ countries' specific priorities which could be taken into consideration for targeted funding.

EASO will fulfil its institutional role within the context of the mechanism provided for in Article 33 of the Dublin III regulation by taking action and informing the relevant institutions involved in the different steps of the mechanism.

6.2.2. Cooperation with the UNHCR and other international organisations

In fulfilling its tasks, EASO acts in close cooperation with the United Nations High Commissioner for Refugees (UNHCR) and with other relevant international and intergovernmental organisations.

With regard to the UNHCR, EASO cooperates closely with and involves the UNHCR in all areas covered by the EASO regulation. In 2013, EASO and the UNHCR signed a working arrangement. On that basis, in 2015 EASO will build on the strengthened cooperation, in particular in the areas of training, quality processes, unaccompanied minors, resettlement, the external dimension of the CEAS and in the field of special and emergency support. Structured cooperation will continue in all fields. The UNHCR participates in the EASO Management Board as a non-voting member and will be invited, where relevant, to meetings of EASO's working parties. Furthermore, it should be underlined that UNHCR has a permanent liaison office to EASO based in Malta.

During 2015, EASO will also be in close contact with other relevant international and intergovernmental organisations working in areas of asylum, such as the Council of Europe, the General Directors of Immigration Services Conference (GDISC), the Intergovernmental Consultations on Migration, Asylum and Refugees (IGC) and the International Organisation for Migration (IOM). Concerning the Council of Europe and the IOM, EASO will regularly exchange views and contribute to their work in 2015. With regard to the GDISC, EASO will contribute actively to its work, participating in several GDISC conferences and workshops, whereas, on the basis of an exchange of letters with the IGC, EASO will be regularly invited to several of the IGC working groups and the Executive Director will be invited to the IGC full round.

6.2.3. Cooperation with EU agencies and JHA agencies

EU agencies' network

EASO promotes strong cooperation with other EU agencies as member of the Inter-Agency Coordination Network.

In 2015, EASO will continue implementing in cooperation with the European Commission the common approach on EU decentralised agencies and its roadmap.

EASO will participate in the relevant activities organised in 2015 in the framework of the performance network and the Inter-Agency Legal Network (IALN), which EASO formally joined in 2013.

JHA agencies' network

EASO is also member of the Justice and Home Affairs (JHA) inter-agency cooperation, together with Frontex, the FRA, Europol, Eurojust, CEPOL, the European Agency for the Operational Management of Large-Scale IT Systems in the Area of Freedom, Security and Justice (eu-LISA), the European Monitoring Centre for Drugs and Drug Addiction (EMCDDA), the European Institute for Gender Equality (EIGE) and the European Anti-Fraud Office (OLAF). In 2015, EASO will participate in the JHA agencies' network and contribute to its activities.

Frontex

On the basis of the working arrangement signed by Frontex and EASO in September 2012, the existing cooperation will continue during 2015. Frontex and EASO will further implement sustainable cooperation on training programmes, quality initiatives, data and analysis sharing in the context of the Early warning and Preparedness System and COI. Furthermore, EASO will foster the cooperation with Frontex in operational support by coordinating efforts when providing support to EU+ countries and by exploring further synergies in border management and identification of international protection needs. EASO will build on its cooperation with Frontex in the development of relevant activities in the field of the external dimension in 2015. Frontex and EASO will maintain their cooperation with regard to each other's activities vis-à-vis civil society, including in the context of their respective consultative forums. In 2015, EASO will continue participating as an observer in the Frontex Consultative Forum.

FRA

The FRA and EASO will build upon the existing cooperation in 2015 in line with the working arrangement signed by both agencies in June 2013. The FRA and EASO will continue sharing information, providing input to research activities and sharing research and data collection methodologies. Both organisations will continue their cooperation in the field of training, furthering the exchange of best practices, information and expertise with regard to fundamental rights. In 2015, the cooperation with regard to each other's consultative activities will continue.

eu-LISA

EASO and eu-LISA will start implementing the activities detailed in the working arrangement signed by both agencies in November 2014.

EASO will also continue to have mutual contacts and relations on a bilateral level with other relevant EU agencies, in particular via the channels of the JHA inter-agency cooperation.

6.2.4. Cooperation with academia and members of tribunals and courts

EASO devotes special attention to relations with the academic world and with the members of European and EU+ countries' tribunals and courts.

In 2015, the academic world will be involved in the work of EASO in different ways, including training development activities and will continue having a main role in the Consultative Forum and expert meetings.

During 2015, EASO and the members of tribunals and courts will cooperate closely, including through the International Association of Refugee Law Judges (IARLJ) and its European chapter, as well as with the Association of European Administrative Judges (AEAJ).

The concrete activities relating to the cooperation with academia and members of tribunals and courts, which will be developed during 2015, have been already defined in Section 2.4.1.

6.3. Consultative Forum

The Consultative Forum constitutes a mechanism for the exchange of information and pooling of knowledge between EASO and relevant stakeholders. Over the past 4 years, EASO has deepened its relationship with civil society and has sought its input on various themes. During 2015, in line with the 2015 EASO consultation calendar, EASO will continue consulting relevant organisations on specific themes, using the selection criteria outlined in the Consultative Forum's operational plan. EASO will also consult civil society throughout the drafting phase of the 2016 work programme, the annual report and other products using a range of tools that have been deemed suitable and efficient so far.

During 2015, EASO will further develop its e-consultation platform. The Internet will continue to be the main vehicle for consultation with civil society. Specific consultation activities will be organised for targeted groups, such as the members of tribunals and courts. Based on the experience of the events in 2012, 2013 and 2014, EASO will organise a conference open to civil society and a plenary meeting in the fourth quarter of 2015.

6.4. Communication

EASO will build on its public communication efforts of 2013–14 to promote the Agency's role, values, activities and work guided by the principles described in its communication strategy. EASO communication activities will also aim at enhancing practical cooperation between EU+ countries. EASO's principal communication channel, the EASO website (http://www.easo.europa.eu), will be complemented by a variety of other channels to emphasise EASO's key messages, namely:

- support is our mission;
- putting solidarity into practice;
- common values, quality and solidarity;
- EASO is a centre of expertise in the field of asylum;
- providing added value for the EU and the EU+ countries.

EASO's key messages will be transparently communicated through several channels in order to ensure the widest outreach possible and therefore increase its legitimacy. The EASO website will be the centrepiece of its communication efforts. EASO will look into ways of further developing and modernising its website in line with user feedback and using the best practices of similar websites. Other channels include:

- written and audiovisual press;
- participation in events (such as EU open days, public hearings and other events including large, politically important occasions);
- presentations and exhibitions of EASO's work and activities;
- · publications and reports;
- EASO's monthly newsletter;
- press releases;
- daily press extracts (for internal use).

One of EASO's main communication objectives is to reach out to all asylum and reception officials in the EU+ countries in order to ensure that they are aware of our main products and can access them, including publications and press releases.

6.5. EASO's administration

With regard to the administrative structure of EASO, the Agency will continue seeking its main goal to deliver a high quality service in order to fulfil effectively and efficiently its mission and objectives. In particular, the General Affairs and Administration Unit will continue to assess, propose definitions and address global administrative needs and requirements of EASO, ensuring compliance and risk management, in line with policies, rules and regulations. Policies and guidelines will continue to be elaborated, thus streamlining the efficiency of services and deliveries on the basis of best practices, lessons learned, evaluations and recommendations. In addition, the administration will provide the necessary support on the implementation of arrangements and financial contributions with relevant stakeholders of EASO.

Further development of the EASO organisation may take place in line with the implementation of the common approach on EU decentralised agencies and its roadmap, the outcomes of the internal and external evaluations of EASO and the audits conducted by the Internal Audit Service and the European Court of Auditors.

EASO foresees for 2015 an investment in order to further develop efficient internal procedures, to increase the internal controls of the organisation in line with the internal control standards adopted in 2012, to provide advanced training to staff on all EASO-related subjects, hence reinforcing capacity building and career development, to continue the recruitment processes and to support the operational units/centres.

A particular focus will be put on EASO's IT and knowledge management systems, in order to reinforce EASO's support activities to EU+ countries, including through the EASO training platform, the COI portal, the Information and Documentation System and the EASO website. Furthermore, advanced consultation tools will be developed. In addition, further consolidation and improvement of the ICT business continuity and infrastructure will be fostered.

EASO's IT will follow the change management process of EASO, providing advance support for improvements and benchmarking. In 2015, a considerable number of tests on established systems will be performed, ensuring that recovery systems and security incident management are fully operational and continuously implemented with the required quality.

In 2015, it is expected to fully implement the records management policy and the retention schedule for EASO documents, including the use of the adequate IT software tools. Finally, in 2015 EASO will foster its internal procedures on data protection in closer cooperation with the European Data Protection Supervisor.

6.5.1. EASO's staff and budget overview for 2015 (6)

The fulfilment of EASO's objectives is subject to the availability of the necessary human, financial and material resources as decided by the budgetary authority. In this sense, the figures included in the staff and budget overview hereunder are outlined without prejudice to the decisions of the budgetary authority on the respective annual budgets and annual establishment plans.

6.5.1.1. Staff overview for 2015

Given its mission and tasks, EASO is a human-resource intensive organisation, as it promotes practical cooperation and provides expertise to the EU and to EU+ countries in order to support the implementation and further development of the CEAS.

Therefore, the EASO human resources should increase in the period 2015 in order to be in a position to effectively perform the tasks originally assigned, the new tasks attributed by the recast asylum *acquis* (e.g. the Early warning and Preparedness System under Article 33 of the Dublin regulation mechanism) and the foreseeable future tasks to be determined by the EU institutions in 2015.

The EU draft general budget submitted by the European Commission to the budgetary authority proposes that EASO will maintain in 2014 a total of 86 staff members (51 temporary agents, 23 contract agents and 12 seconded national experts) (7). The allocation per unit will follow the distribution shown below (8).

Unit	Staff members
Executive Director	1
Executive Office	6
Accountancy	2
Centre for Operational Support	13
Centre for Information, Documentation and Analysis	20
Centre for Training, Quality and Expertise	15
General Affairs and Administration Unit	29
Total staff members	86

⁽⁵⁾ All the figures on staff and appropriations included in this section are subject to the adoption of the EU general budget 2015 by the budgetary authority.

⁽⁷⁾ This figure does not include the three contract staff engaged by EASO for the implementation of the 18-month ENP project 'Promoting the participation of Jordan in the work of EASO as well as the participation of Tunisia and Morocco in the work of EASO and Frontex' which started in 2014.

⁽⁸⁾ The exact staff allocation per centre will be determined once the EU general budget 2015 and the EASO establishment plan have been decided by the budgetary authority.

In line with the principles of activity-based budgeting, EASO has introduced a link between activities grouped under the same objectives and resources needed to implement them, both in terms of appropriations and in terms of staff. The figures of staff allocated to the implementation of the activities under Sections 2 to 5 only reflect staff members assigned to the operational units. While staff members of the Executive Office, Accountancy and the General Affairs and Administration Unit also contribute directly and indirectly to the implementation of operational activities, the work programme does not split their allocation by concrete activities save otherwise stated specifically.

In line with the staff regulations and the implementing rules adopted by the Agency in 2014, staff development policies will be further implemented to ensure adequate capacity building and new opportunities for EASO staff members.

6.5.1.2. Budget overview for 2015

EASO's revenue consists of a contribution from the EU entered in the general budget of the European Union; any voluntary contribution from the EU+ countries; charges for publications and any service provided by EASO; and a contribution from the associated countries.

Due to the relevance of the EU subsidy within the EASO budget, the allocation of necessary resources is crucial in order to achieve the goals set out in the EASO work programme 2015.

Acknowledging the resource constraints in the EU, EASO will request revenue in a sound and balanced manner and will ensure prudent control of expenditure, in order to perform current and eventual future tasks effectively and expediently. EASO will continue its bottom-up approach to budgeting, involving all units/centres in EASO's budgetary cycle. The expected total expenditure 2015 is approximately EUR 15.7 million, including the EU contribution to EASO for 2015 of EUR 14 731 million as per the EU draft general budget submitted by the European Commission to the budgetary authority, the contribution from the associated countries participating in EASO (approximately EUR 627 000) (9) and the contribution for the implementation of the ENP project entitled 'Promoting the participation of Jordan in the work of EASO as well as the participation of Tunisia and Morocco in the activities of EASO and Frontex' (EUR 322 681).

The draft estimates of expenditure for 2015 contain the following distribution by title.

Expenditure 2015 Figures in euro	Commitment appropriations	Payment appropriations
Title 1 — Staff expenditure	6 500 000	6 500 000
Title 2 — Infrastructure and operating expenditure	2 680 000	2 680 000
Title 3 — Operational expenditure	6 178 000	6 178 000
Title 4 — ENP countries participation in the work of EASO	322 681	322 681
Total expenditure	15 680 681	15 680 681

Title 1: Staff expenditure

Title 1 relates to expenditure on staff, staff costs (e.g. mission costs, trainings costs) and salaries. Given the nature of EASO's activities, several costs related to operations are to be found under Title 1. Title 1 covers costs for operational staff and costs for administrative staff, who facilitate EASO's operation, such as asylum support teams, expert meetings and training. Title 1 covers also the costs for administrative missions, whereas costs of EASO staff missions directly related to EASO's operations are covered in Title 3.

^(°) In application of the arrangement for the participation of the Kingdom of Norway in the work of EASO, Norway will contribute an annual sum calculated in accordance with its gross domestic product (GDP) as a percentage of the GDP of all participating states. The final figures of the GDP of Norway will be available on 31 March 2015. EASO also expects the entry into force of arrangements with Switzerland, Liechtenstein and Iceland which may also impact the revenues for EASO.

Title 2: Infrastructure and operating expenditure

Title 2 relates to expenditure on administrative costs for, among others:

- rental of buildings and associated costs: EUR 945 000;
- ICT: EUR 433 000. It should be noted that Title 2 does not include IT operational expenditures such as web portal costs which constitute part of Title 3 expenditure;
- EASO Management Board meetings and other meetings: EUR 200 000; it should be underlined that Title 2 covers the costs for administrative publications and corporate communications, but does not include the costs of publishing reports under the different operational activities, for example the annual report on the situation of asylum in the EU and the COI reports which constitute Title 3 expenditure.

Title 3: Operational expenditure

The following table presents an overview of the draft budget assigned under Title 3 to the different tasks, the expenditure of which is explained in detail in the previous chapters. Title 3 also covers operational missions performed by EASO staff (i.e. missions undertaken in direct support of operational activities identified in this work programme in line with EASO's mandate) as well as all costs directly related to the implementation of operational activities (e.g. distribution of materials, transportation, catering, rental of venues for activities outside the EASO premises or technical equipment).

Title 3 (10)	Operational expenditures	6 178 000
Ch. 31	Support for the CEAS implementation	680 000
3101	Annual report on asylum	130 000

3302	Emergency support	2 041 000
Ch. 34	Cooperation with partners and stakeholders	150 000
3401	Cooperation with partners and stakeholders	150 000

⁽¹⁰⁾ Including operational missions performed by EASO staff.

⁽ 11) Including unaccompanied minors and trafficking in human beings.

Title 4: ENP countries' participation in the work of EASO

Title 4 will cover the expenditure for the implementation of the project entitled 'Promoting the participation of Jordan in the work of EASO as well as the participation of Tunisia and Morocco in the activities of EASO and Frontex'. This activity corresponds to programmes financed by earmarked contracts.

Title 4	ENP countries participation in the work of EASO	322 681
Ch. 41	ENP countries participation in the work of EASO	322 681
4101	Collaboration of ENP countries with EASO (earmarked)	322 681
